New Federal Payroll Tax Withholding Tables Effective with Pay Period Ending March 15, 2009

The new payroll tax withholding tables, prescribed by the Department of the Treasury, reflect changes resulting from the American Recovery Reinvestment Act of 2009. The new withholding rates are lower and will result in less federal taxes being withheld from your wages. The new rates will automatically be applied to wages, effective with the pay period ending March 15.

If you do not wish to have your tax withholding reduced, you may file a new W-4 form with the Caltech Payroll Department. To make changes to your tax withholding amount, please fill out and sign a W-4 form and mail it to the Payroll Department at MC 156-84. The form is available in the Human Resources Office at 399 S. Holliston or online at <http://cit.hr.caltech.edu/HRForms/fw4i.pdf>
